We are proud to produce some of the most engaging and informative resources for educators committed to providing child-centered early learning, including:

Beautiful Stuff from Nature

More Learning with Found Materials

Edited by Cathy Weisman Topal and Lella Gandini

Following in the tradition of *Beautiful Stuff*, which documented the discoveries made and celebrated in a single classroom, *Beautiful Stuff from Nature* tells stories from all around North America, in which children and teachers explore their local environments. Through their explorations, collections, creations, displays, and stories, children discover the beauty and variety of their own natural worlds. Principles of the Reggio Emilia approach guide the explorations and documentations of found materials from the natural world, providing inspiration for students in any classroom to look more closely at the natural wonders that surround them. 127 pages, softcover. **\$34.95**
